

Toch Smarturns: keeping you safe in the kitchen

Toch Smarturns transforms your stove to a smart stove, making cooking safer.

When the burners are turned on, a sensor monitors the stove user's movements.

If the stove is left unattended for an extended period, *Smarturns* will alert the stove user via a local alarm.

Smarturns can also alert the user and/or remote caregiver via mobile phone notifications.

Tochtech Technologies

At Tochtech our mission is to enable a future where seniors can live independently while feeling safe, cared for and connected for as long as they choose to.

To find out more about our other products please visit our website at www.tochtech.com

We are working with the community to build better solutions. If you are passionate about enabling independent living for seniors we would like to hear from you.

Toch — Smarturns

Keeping You Safe
in the Kitchen

Smarturns Product Features

Be Alerted

Local alarm and mobile phone notifications remind stove users when the stove is still on.

Be Connected

Can't always be there? *Toch Smarturns* lets you know in real time when someone is using the stove, keeping you connected when you cannot be there.

Be Informed

Status updates inform you when the stove is on and when it is turned off.

Be Monitored

Monitor the safety of more than one stove from your phone. Usage reports keep you informed of usage patterns and volume.

Easy to Install

Setup is easy and does not require professional installation services.

1 Replace knobs on stove

2 Mount motion sensor

3 Connect the hub

Kitchen Safety

Are you worried about the stove being left unattended or forgetting to turn the stove off?

Are you concerned about a loved one or tenant forgetting to turn off the stove?

Cooking is the **leading cause** of home fires and home fire injuries.

34% of fires in the home are reported to have started in the kitchen.

Now *Toch Smarturns* can transform your stove to a smart stove, keeping you safe as you cook.
